KANSAS DEPARTMENT ON AGING

Medicare Prescription Drug Coverage

Navigating through Medicare

Medicare Prescription Drug Coverage (Part D)

- Insurance that covers both generic and brand name prescriptions
- Coverage is provided through private insurance companies
- Many types of plans are available

(Most people will pay a monthly premium for Medicare Prescription Drug Coverage.)

If you have Medicare only

- Enrollment in a Prescription Drug Plan is not automatic.
- If you want prescription coverage, you must choose a plan.
- Most people will pay a monthly premium, and may have deductibles, co-pays and a coverage gap.
- Waiting to enroll may result in a higher premium.
- Extra Help is available for people with limited income and resources.

If you have both Medicare and Medicaid

- You will get almost all your drugs through Medicare rather than Medicaid.
- You will be automatically enrolled in a Part D plan.
- The auto-enrolled plan may not be the best one for you. You should shop and compare plans to see if another plan will give you better coverage.
- You will be able to change plans at any time.
- You will automatically receive help paying the premiums, deductibles and co-pays of your Medicare Prescription Drug coverage.

What You Need to Know

- You need to shop and compare Prescription Drug Plans each year to find the one that best suits your needs.
- You can get information about the plans in several ways:
 - on the internet at **www.Medicare.gov**
 - by calling Medicare at **1-800-MEDICARE** (1-800-633-4227)
 - by calling SHICK at **1-800-860-5260** to find a counselor in your area
- SHICK has trained counselors that can work with you over the phone or in person to help you understand your options so you can choose a plan that's right for you.

Questions about Medicare?

Call **1-800-860-5260**...a SHICK Counselor will be happy to help
